

THE SIX-MONTH SELF-FINANCING COLLECTION (OF MONEY)

The self-financing is on 21st June and the 21st December of every year.

1

The Humanist Movement is self-financing by means of a personal contribution of its members.

4 The collection (of money) of Humanist Movement is divided as follows:

- 25% World-wide Fund
- World-wide meetings;
 - To finance international projects for example: News Agencies, International Campaigns of Human Support, Centres of Cultures, Tv, Radio etc...

- 25% General Delegates Fund
- 25% Team Delegates Funds
- 25% Group Delegates Fund
- In each structure participants decide the destination of the funds:*

This contribution is calculated as the 1/8 of the medium salary of the country where people live. For this reason the amount is not the same in the different countries, but it's different from country to country and corresponding exactly to the same human effort. In this way it's possible to get the necessary resources to carry on our projects

2 Not accepting any money from institutions, government, firms etc we guarantee our ideological and action independence.

It's possible to use funds for materials, communications, constructions of equipment, missions, to open new premises of the Humanist Movement, etc...

By this Fund each level self-finances the development of its activities, of its communications, etc according to its own six-month calendar. The six-month contribution is a private contribution, each person pay with his money the collection (of money). A person can decide to realise with other people activities to rise the collections (of money). When we say that the collection is private we mean that if a person decide to do a particular activity with other people to rise the collections, each person has to give his personal supply to pick-up his part

3 The collection (of money) is one of the minimum "settlement" to be a member of the human structure of the Movement. For this reason the collection (of money) is personal.
